## Hello

We are the North Wales Social Care and Wellbeing Improvement Collaborative. We are made up of Betsi Cadwaladr University Health Board (BCUHB) and the six North Wales Councils

In 2017, we collected information for the North Wales Population Needs Assessment.

We asked people about the services they used and what they needed so we could plan for the future.

We've talked to more people and improved services since then, but Covid-19 has changed lots of things:

- more people need support
- services have had to adapt and change how they help people.

**We want to check services are still helping people in the right ways.**

## About this survey

Services are here to provide care and support to people of all ages with different needs. They help children and young people:

- stay safe from harm and abuse
- in care, including foster care
- who have a disability
- who have physical or mental needs
- who need help with day-to-day tasks like bathing, dressing or shopping.

**If you receive care and support from services, we want to know what you think?**

We want to know about the support you get, how well it's working and what matters to you.

**Please go online and answer the questions here:** [wh.snapsurveys.com/s.asp?k=162858519238](https://wh.snapsurveys.com/s.asp?k=162858519238)

If you want to answer the questions over the **phone**, contact Eluned Yaxley on 01824 712041.
