Dementia	100	0.6%	0.8%	0.7%
Epilepsy (patients aged 18+)	150	1.0%	1.0%	0.8%

* lung diseases including chronic bronchitis and emphysema

Based on clusters of GP surgeries as identified by local health boards. The health boards have formally developed arrangements for small groups of GP practices to work collaboratively to develop services in the community, serving populations of between 30 and 50 thousand patients. Clusters are best fit to the sub areas and do not exactly match the same boundaries.

These statistics may be used under the terms of the Open Government Licence.

Households below 60% GB median (=< £22,021)		37.0%	33.1%	33.4%	27.8%

Benefits (DWP, Nov 2022)

There is a discontinuity in the benefits data, as Universal Credit is rolled out and starts to replace older awards systems.
% is of all in that age group.

	South Meirionnydd		North Wales	Wales	GB
	Number	%			
Children (aged 0-15)					
Disability Living Allowance (DLA)	100	3.8%	5.9%	5.7%	5.1%
Working age (aged 16-65)					
Universal Credit	1,200	11.0%	14.0%	14.5%	13.6%
Job Seekers Allowance (JSA)	10	0.1%	0.2%	0.2%	0.2%
Employment & Support Allowance (ESA)	520	4.8%	4.9%	5.8%	3.9%
Disability Living Allowance (DLA)	25	0.2%	0.3%	0.2%	0.5%
Personal Independence Payments (PIP)	735	6.8%	8.5%	9.5%	6.4%
Carer's Allowance	255	2.4%	3.1%	3.3%	2.5%
Pensioners (aged 66+)					
State Pension	5,110				
Pension Credit	595	11.5%	12.6%	13.1%	11.9%
Attendance Allowance	805	15.5%	16.1%	16.5%	13.7%
Disability Living Allowance (DLA)	180	3.5%	5.5%	7.1%	4.3%
Personal Independence Payments (PIP)	195	3.8%	5.0%	6.5%	4.3%
Carer's Allowance	150	2.9%	3.7%	4.0%	2.7%

Poverty and deprivation

Children in low income families - relative income poverty (DWP, 2021/22)

	South Meirionnydd		North Wales	Wales	GB
Children in in-work families	625	23.1%	21.9%	21.7%	17.5%
Children in out-of-work families	120	4.4%	5.1%	5.5%	7.3%
Total	**745**	**27.6%**	**27.0%**	**27.2%**	**24.7%**

As % all children aged 0-15. 'In work' is working 16 hrs a week or more. Relative income poverty = below 60% of UK median.

Welsh index of multiple deprivation (Welsh Government, 2019)

	South Meirionnydd			North Wales	
Total LSOAs in area	13			423	
No. LSOAs in most deprived:	**10%**	**25%**		**10%**	**25%**
In each deprivation domain					
Overall Index	0	0		23	65
Income	0	0		25	71
Employment	0	0		20	59
Health	0	0		25	64
Education	0	0		26	79
Access to services	7	9		53	134
Housing	0	1		44	101
Community safety	0	0		3	15
Physical environment	5	5		39	107

Deprivation data shows how many lower super output areas (LSOAs) in the area are in the 10% and 25% most deprived LSOAs in Wales.

Key messages for primary care clusters from the Population Needs Assessment

- **Children and young people:** Numbers projected to decline but need for support may increase with, for example, the impact of Covid-19 on mental health or an increase in children with complex needs surviving early childhood due to improvements in health care. Priorities include early years, children receiving care and support, disabled children, young carers and young refugees and asylum seekers.

- **Older people:** The increasing number and proportion of older people in population over the next 10 years will likely lead to an increase in the number of people with dementia and changes to the amount and type of care needed to support increasingly complex needs, including nursing needs. Priorities include working together to support people to remain at home, supporting people to live well with dementia, falls prevention, supporting people to be more active (such as more inclusive leisure services) and, housing and accommodation (new and adapted homes suitable for changing needs).

- **Disabled people (physical and sensory impairment)**: Priorities include accessibility of public services, spaces and information and a commitment to working with disabled people to remove barriers to health and care services.

- **People with learning disabilities**: The population is expected to increase, particularly in the 65 and over age group due to increased life expectancy. Priorities include inclusive communities, accommodation, assistive technology, and employment opportunities. Also need to reduce health inequalities through reasonable adjustments to services and annual health checks by GPs.

- **Autistic people**: The population is expected to increase as assessment is more widely available. Priorities include implementing the code of practice for autism services, raising awareness, mental health and well-being, education, and employment.

- **Mental health**: Priorities include early intervention before people reach crisis point and addressing wider determinants which influence mental health.

- **Unpaid carers**: Issues within wider social care workforce recruitment and retention are leading to additional demands on unpaid carers. Priorities include early identification and awareness raising, opportunities for breaks from caring (respite) and improving unpaid carer assessments.

- **Veterans:** Priorities include the Armed Forces Covenant, see [health care toolkit](#).

- **Refugees and asylum seekers:** Priorities are mental health support and partnership working between health, various council departments, voluntary and community organisations and other public services.

Cross-cutting themes affecting all population groups: recruitment and retention of the workforce, socio-economic disadvantage (including an increase in poverty leading to increase in demand for services), digital inclusion, Welsh language 'Active Offer', equality and human rights, housing, loneliness and isolation, social value, co-production and citizen voice, prevention and early intervention, safeguarding, reduction of health inequalities, violence against women, domestic abuse and sexual violence and Covid-19.

More information

- [North Wales Population Needs Assessment](#): information about the care and support needs of people in North Wales and the support needs of carers.

- Prevention and early intervention includes tackling the wider determinants of health including poverty, housing and environment as well as timely access to health and social care. For more information see the [early intervention and prevention evidence map](#) and [Public Services Board Well-being Assessments.](#)

- [Regional Partnership Board:](#) more information about work underway to address these needs.

- Local Development Plans. Where any new large-scale housing developments or future population growth would cause capacity problems, planning policy teams may be able to help access funding from housing developers towards medical centres.

Local feedback

Gwynedd
Challenges include lack of nursing placements and the cost of placements.

Conwy
Challenges include:

- Need for services to support teenagers
- Supporting older people upon discharge from hospital to recover at home. Often people are being placed in care homes because of the lack of support available by the local authority, family, or local providers.
- Availability of hospital beds and ambulance and A&E waiting times.

Priorities include supporting disabled people into employment and to maintain employment.

Denbighshire
Local priorities include deepening poverty and deprivation giving potential increase in demand for services while local authority income is reduced.
